to the Association of Binational Families and Partnerships!

The Association of Binational Families and Partnerships works nationwide interlinking family, migration and education policy. We are the only representation for the interests of binational, migrant and global families and couples at a federal, state and municipal level.

We are committed to the fundamental and human rights of all families and couples living in Germany, irrespective of their origin, sexual orientation or religion. Strong societies need diversity and these diverse families need equitable participation and involvement in society. This is what we are committed to.
